***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Alan Towner on January 21, 2004.

The application has been amended as follows:

- Claim 19 has been cancelled as a substantial duplicate of claim 9.
- Claims 22 – 33 have been cancelled as being drawn to a method of making IrMnN films, non-elected without traverse.

***Reasons for Allowance***

3. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious the claimed IrMnN film structures.

While the prior art of record discloses forming Mn alloy films with a (200) crystal structure (*Lin et al.*), the prior art of record fails to teach or render obvious the formation of such a structure without the use of seed layers. I.e. the prior art of record fails to teach or render obvious a "film directly deposited on a non-seed layer substrate consisting essentially of IrMnN having a (200) texture".

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
